

Mick Nairn

I'm running for President because the role requires a broad range of experience across both Brigade and within the Union.

I've been in the job for 17 years, 15 as a permanent and 2 as a retained. I am an LF, trained in rescue and USAR.

I've been on SCOM for 6 years as the Sydney South Sub Branch Secretary. I've been a station delegate for 10 years.

As Sydney South Sub Branch Secretary I built my sub branch from scratch as it didn't exist before 2012. I'm a successful campaigner having run campaigns to stop TOLing in permanent stations and the Miranda by-election. I was responsible for organising approximately 100 FFs to attend polling booths across the electorate to hand out Put the Liberals Last flyers and educating the community about the government's cuts to fire services.

I will use my experience to improve the training and engagement of our Sub Branch Secretaries. I will also get the President and Vice Presidents engaging more with the entire membership both permanent and retained.

I am committed to expanding our membership by growing jobs through regional expansion and growing our core roles of fire, rescue and hazmat.
