

Nicole Morris

In 2015 I joined Bathurst station as a Retained Firefighter. For those unfamiliar with Bathurst, the station is a mixed station with Intermediate HAZMAT located in regional NSW.

The tough stuff

I am running for the position of Retained Sub-Branch Secretary which for me means being the voice for over 3,000 firefighters, I think I am up for the challenge. In my short period of time (I joined after the last election) I have seen the potential introduction of RBRP, selective calling, MFR and health & fitness testing.

What I stand for

Career progression for retained firefighter, a ranking system not based on years in the job. A system where retained firefighters are able to gain the same nationally recognised qualifications as our permanent comrades

Open, honest and transparent communication. In the age of digital media members should be up-to-date with what's going on with our award negotiations, IR disputes and any potential changes to working conditions.

I am committed to being a voice for anyone who needs it, others would describe me as a dog with a bone. I won't let go of an issue until it's solved.
