

Robert (Bobby) Callow

I am entering my thirty third year of firefighting and have served at a number of stations including 39, cos1, St Marys, Blacktown, Penrith, Mt Druitt, Parramatta, and most recently as an instructor in the BLS section out of the STC.

Running for a position on SCOM is something I'm very excited about I hope to represent the members in the sub-branch by holding meetings at your station collecting your ideas and making sure that I attend as many meetings of SCOM as is humanly possible, I want to see the union establish a position of strength and the rank and file thinking about the collective rather than the individual and when this

can happen the strength as a large united union force will be insurmountable.

I will be running as an independent with a willingness to work with other elected officials for the greater outcome. Make no mistake this is a difficult time for unions and particularly our FBEU and we must remain strong and vigilant.
