

## Martin Dixon

I am nominating for the position of Inner West Sub Branch Secretary. I have held this position since 2010 and prior to that was on the Sub Branch Executive and a station delegate. You can find my full bio at [www.ourfbeu.net.au](http://www.ourfbeu.net.au).

I joined FRNSW in 2001 and have been an active FBEU member from day 1.

I am very proud of what the FBEU has achieved during my time on SCOM, but there is always room for improvement.

Moving forward I would like to see an FBEU without divisions. A Union which works collectively and collaboratively is the most effective.

Some of the key issues I hope to address if reelected: -

- Job share between Operational Support and Operational positions.
- Not moving into new territory (MFR), but focusing on and expanding what we already do. Why do Paramedics perform rescue if they need more Ambulances on the road? RFS in metro areas?
- Our promotional programs.
- The mess that is cognitive, emotional intelligence and psychometric tests, some which are wasteful and misused.
- Training.

I'm politically active with no political aspirations. I'm here solely for the improvement of our job for our members. Contact me on 0416307633 for any questions or discussion.
