Recall kilometres dispute: Industrial action on hold pending urgent meeting

SitRep 17 instructed members that from 0800 hours on Tuesday 19 June, the only stop code to be given for any and all Automatic Fire Alarm calls that are not 'working' jobs is the (non-chargeable) code 702.

This instruction has been placed on hold pending an urgent meeting to be held between the Union and Department tomorrow at 0930 hours.

A further notice will be issued online and by fax at midday tomorrow.

Leighton Drury
State Secretary
