

AWARD ARBITRATION – LIVE STREAM

As outlined in [SitRep 4](#) last week, members are aware that the Parties are currently in the IRC for our Award proceedings. Week 2 of the arbitration started this morning.

We are still calling for members to physically fill seats in the hearing room itself to ensure a presence before the Full Bench – you can register your interest [here](#).

We have however been working for some time to secure a live stream link for proceedings and I am pleased to report that following discussions with the IRC, they have now been able to source an appropriate platform for live streaming which is available for all members to access – you can [click here to view the stream](#).

In order to avoid disruption in the courtroom, we ask that you minimise the need to log in and out of the hearing as much as possible.

A reminder to any members who will be giving evidence in-person that you are unable to view any other evidence until your session is complete. Do not view this live stream if you are due to give evidence in-person this week.

The court will be in session from 1000hrs to 1600hrs Monday to Friday this week.

In Unity
