

HOW F*CKED IS YOUR TRUCK?

FIX OUR FIRE SERVICE AUDIT #2

Successive budget cuts and poor planning, has seen FRNSW make decisions on \$\$\$ rather than best practice, resulting in a 'rob Peter to pay Paul' mentality with greater risks to capability for the community and to the health and safety of our Members.

The FBEU is aware that the fleet across the state are in varying states of disrepair and some, regardless of age, are just not up to scratch. For almost a decade we've seen little investment in our fleet. Fire and Rescue NSW has failed to secure significant capital from the NSW Government to invest in our appliances.

According to the 2021 FRNSW Strategic Asset Management Plan, FRNSW have employed 'innovative maintenance programs' to 'extend the useable life of assets'. This is what we call a band-aid fix. It's not good enough.

It's time for us to step up and get active and organised to Fix Our Fire Service.

The **How F*cked is Your Truck Audit** will help us produce our **Fix Our Fire Service Report** and to:

1. Assist Members to address issues collectively in your worksites
2. Demonstrate the issues we face to our Employer
3. Identify and address work health and safety concerns
4. Educate the public about the impact of the neglect of our fleet
5. Lobby government for funding to Fix Our Fire Service

What do you need to do?

We need Union Delegates (or HSRs) in every FRNSW Station to complete the audit.

We need ONE audit from each station.

If you have more than one Delegate or HSR at your station please work together to do ONE audit.

You can complete your audit [here](#) and you can download and look at the questions in advance [here](#).

We also ask you to upload a number of photos if possible.

If you don't have a Delegate please talk with your co-workers and make a plan to get a Delegate (or HSR) and have one person complete the audit. It's important that with such a large project we have one go-to person.

Any questions, get in touch with your organiser or office@fbeu.net.

Scan the QR code and do the audit today!
